Footnotes to 2000 Census Neighborhood Analysis

Footnotes:

1. *The 1980 and 1990 Censuses grouped Asians and Pacific Islanders into a single category. The 2000 Census split the two groups into separate categories. For the purposes of comparison the 2000 figures for Asians and Pacific Islanders are grouped into a single category.*
2. *The category "Other" indicates that the respondent wrote in a race category not included elsewhere by the Census Bureau. For the 2000 Census, examples of responses coded as "Other" include various Hispanic groups, multiracial, mixed, Cajun, Cape Verdean and Creole. In prior Censuses, any response that stated a race category not included elsewhere or who wrote in two or more race categories were coded as "Other".*
3. *Census 2000 was the first census to allow respondents to report more than one race for an individual. This category includes all responses where the subject selected two or more races in any combination. Due to this change in methodology, racial statistics reported from Census 2000 lack a one-to-one comparison with those reported by any previous Census.*
4. *Hispanic status is independent of race and reflects whether a respondent has origins in either Spain or the Spanish speaking countries of the western hemisphere. The later include Mexico, Cuba and the Dominican Republic, as well as all Spanish speaking countries located in Central America and South America.*
5. *For the purposes of this table, "Minority Population" is defined to include all non-White persons and all persons of Hispanic heritage, regardless of race.*
